"WITH STANLEY IN AFRICA"

#17 "The White Tribe"

MAY 11 1922

Jack manages to rescue Nadia, Selim and himself from the whirlpool and eludes the Arabs, who give them up as lost and plan to continue their search for the White Tribe. Surrounded by an attacking party of hostile savages, the trio is saved by the intercession of the tribe's chief, who turns out to be the Negro Nadia saved from slavery.

At Ujiji, Stanley and Livingstone return from extensive explorations which have revealed the presence of the supposed White Tribe. Jack and Nadia later discover the village of this tribe and are attacked by the guards. Jack is apparently killed and Nadia, seeking to escape, falls from a high cliff to the bottom, where Harden is fighting off a band of the natives.
